

DATA PROTECTION · COOKIES & LOCAL STORAGE

Cookie Policy

This policy explains how shersanctuary.com and the SHER Investor and Buyer Portals use cookies and similar technologies. We keep it simple: we use functional cookies only.

1. What Are Cookies?

Cookies are small text files placed on your device by a website when you visit it. They are widely used to make websites work or to work more efficiently. Cookies can be "session cookies" (deleted when you close your browser) or "persistent cookies" (which remain on your device for a set period or until you delete them).

In addition to cookies, web browsers provide "local storage" — a mechanism that allows a website to store small amounts of data on your device without an expiry date. The SHER portals use local storage for the same functional purposes described below.

2. Cookies We Use

We use **functional cookies and local storage only**. These are strictly necessary for the portal to operate correctly. We do not use advertising cookies, analytics cookies, or any third-party tracking technologies.

Cookie / Storage Key	Type	Purpose	Duration
Portal session state	Session (local storage)	Remembers that you have entered the correct access code for the investor or buyer portal gate during your browser session — prevents you from having to re-enter your code on every page load within the same session	Session only — cleared when you close your browser tab or window
Form session state	Session cookie	Maintains the state of multi-step forms (discovery profile, booking enquiry) within a single session — prevents loss of partially completed form data	Session only
Netlify forms	Functional — set by Netlify	Required for form submission processing via Netlify's form handling service. Netlify may set a session cookie for bot-protection and form identification purposes	Session only

3. What We Do Not Use

- **Analytics cookies** — we do not currently use Google Analytics, Matomo, or any other analytics platform that tracks visitor behaviour across sessions;
- **Advertising cookies** — we do not run advertising campaigns that use behavioural tracking;
- **Social media tracking pixels** — we do not use Facebook Pixel, LinkedIn Insight Tag, or similar third-party tracking pixels;
- **Persistent cross-site tracking** — no data about your browsing activity on other websites is collected by us.

4. Third-Party Cookies

Certain third-party services integrated into the site may set their own cookies:

- **Google Fonts** — the site loads fonts from fonts.googleapis.com. Google may log the request and its associated IP address. We are in the process of evaluating whether to self-host all fonts to eliminate this request entirely.
- **Vimeo** — where video content is embedded in the investor or buyer portals via Vimeo, Vimeo may set its own cookies when you play a video. These are subject to Vimeo's own privacy policy. You can prevent Vimeo cookies by not playing embedded videos.

We have no control over third-party cookies and are not responsible for the data practices of third-party services. We select third-party services on the basis of their privacy posture and will update this policy if our use of third-party services changes materially.

5. How to Control Cookies

You can control and delete cookies through your browser settings. Most browsers allow you to:

- View and delete individual cookies;
- Block all cookies from all sites;
- Block third-party cookies only;
- Accept cookies from specific sites.

Browser-specific instructions are available at:

- Chrome: Settings → Privacy and Security → Cookies and other site data
- Safari: Preferences → Privacy → Manage Website Data
- Firefox: Options → Privacy & Security → Cookies and Site Data
- Edge: Settings → Cookies and site permissions

Please note: if you disable functional cookies and local storage in your browser, the portal access gates (investor and buyer portals) may not retain your unlocked state between pages. You may need to re-enter your access code each time you navigate between sections.

6. Compliance

This Cookie Policy is issued in compliance with the Data Protection Act Cap. 8:18 of Saint Lucia (fully in force 1 January 2025) and applies the principle of data minimisation — we collect and process only the data strictly necessary for the functional operation of the site. As we do not use non-essential cookies, we do not operate a cookie consent banner; all cookies set are functional and necessary. Should we introduce any non-essential cookies in the future, we will update this policy and implement appropriate consent mechanisms before doing so.

7. Changes to This Policy

We may update this Cookie Policy from time to time. The current version will always be published at shersanctuary.com/legal. Significant changes will be communicated through a notice on the site.
